
 Single Family

 2700 SQFT

 3 Beds

 3 Baths

PROPERTY DETAILS

Just steps from South Table Mountain trails and a short bike ride to downtown Golden, you will absolutely love the fantastic location of this well-maintained 3-bed, 2.5-bath South Golden home! The main level is light and bright with vaulted ceilings and an open floor plan. The upper level includes two secondary bedrooms, a bathroom with double sinks, and a large master suite with a 5-piece bath, a walk-in closet, vaulted ceilings, sky lights, and surround sound. The large unfinished basement offers plenty of room for storage or the opportunity to expand. Many of the homes major components including the furnace, roof, and water heater, were recently replaced. The home also features new exterior paint, a xeriscape front yard, a stamped concrete driveway and entry, and a new back fence, leaving very little exterior maintenance for the new owner!
