PROPERTY DETAILS

Rare large home with huge garage/workshop near Ruby Hill - The Master suite, complete with private balcony is the entire second floor of this home, the two main floor bedrooms and full bath along with over-sized laundry, that could double as additional bedroom space or office space make this an ideal home for just about anyone - several parks within walking distance including one just 100 steps from the front door and Ruby Hill Park just two blocks to the east, offering swimming pool and summer concerts. The ideal location is convenient to downtown as well as the mountains making commuting a breeze - newer roof and maintenance free siding and a wonderful front porch to watch those beautiful Colorado Sunsets
