The home has 2,054 SF above ground and 931 SF in the basement. The living and dining rooms have wonderful windows and beautiful woodwork. The fireplace is surrounded by built-ins. The main floor features a bedroom and full bath, both rare for a home from the early 20th century. Upstairs are 3 bedrooms and another full bath. A master bath can be added to create a complete master suite. The basement has a separate outside entrance, ideal for a short term rental use. The 2-car detached garage is accessed from the alley.
