PROPERTY DETAILS

This stunning property shows like a model home! Featuring an open floor plan and neutral colors, this home is so well cared for and is move in ready. Upstairs is a spacious master bedroom with a 5-piece bath and walk-in closet. Also, there are 2 additional large bedrooms, a hall bath and open loft area - perfect for an office, den or kid's play area. On the main level is a living room, beautifully staged as a formal dining room, a bright kitchen with gorgeous slab granite counters, pantry storage, an island and stainless steel appliances. The kitchen opens to the living room with a gas fireplace and large windows with generous natural light. There is a powder room and laundry combined adjacent to the 2 car garage. The basement is unfinished but features a rare extended square footage for the neighborhood and ready for your design with a rough in bath.
