PROPERTY DETAILS

This is the quintessential mountain home and lot with views, privacy, usability and easy access to Conifer and Aspen Park. The towering two-sided white stone fireplace separates the living area from the dining area without closing either area off. The vaulted ceilings and thoughtfully placed windows bring in a ton of light and show off the home's amazing views. The upstairs features a high-end wool carpet that begs for walking around barefoot. The master suite is roomy with a private balcony. The master bath and 2nd floor bath are all new with stunning tile work, quartz counters and alder cabinets. The main floor bath has been renovated to feature a tile and stone walk-in shower and vessel sink. Thoughtful barn door detailing throughout. The home has a new roof, all new windows, sliding doors, alder interior doors, baseboard heaters and fresh paint throughout. This is the one you've been waiting for! 3 bedroom septic for the use of 6 people.
