

 Single Family

 3963 SQFT

 4 Beds

 5 Baths

PROPERTY DETAILS

Exceptional custom built (2015) single family home in Sloan's Lake with unobstructed breathtaking views of the mountains & lake from almost every room! This home features an open living first floor with dining area & family room with stone fireplace, large kitchen, Thermador appliances, two large islands, bedroom/office, full bath and a custom vintage barn door. The 2nd floor features an oversized master bedroom with walk out porch, master bath with double shower and a large master closet as well as two large bedrooms with walk in closets, and a full bath. The 3rd floor has a large family room with wet bar, half bath and deck with dramatic views across the lake and the mountains from Longs to Pikes Peak. The home also has a finished basement with 8' ceiling, wet bar and half bath, as well as an oversized 3 car garage.
