PROPERTY DETAILS

Step inside to this absolutely adorable home that has been lovingly cared for! Experience a floor plan that makes sense with vaulted ceilings, windows in every room, and a completely open kitchen/ dining/ living room area. Freshly refinished hickory floors and large windows make this feel like a show home with just the right finishes. Newer stainless steel appliances, a large island with a deep sink, and extra cabinets and countertops make this kitchen a dream. Check out the cozy living room with a low maintenance fireplace and custom mantel to make you want to stay home. Custom tinting on all the south facing windows on the home will save you money without compromising on all your natural light. Smart features included are a Nest thermostat and a Ring doorbell for convenience. For extra entertaining space step right through the patio doors to your oversized concrete patio and large backyard with a garden area and sprinklers with separate zones. When you are ready to get out there are plenty of trails to explore in the neighborhood and parks nearby to keep you moving!
