PROPERTY DETAILS

This well-maintained Smoky Hill home has it all; vaulted ceilings, wood floors, slab granite counter tops and a flood of natural light through the Renewal by Andersen Windows! The remodeled kitchen features Legacy soft-close cabinets and high-end SS/wood paneled appliances. A few steps down will bring you to the large family room with wood burning fireplace, and the custom built sun room which features a 7-person Hot Tub, tile floor and a "outdoor" shower. Upstairs you will find a huge master suite with his and her closets and an amazing en-suite bath! The three additional bedrooms are also generous in size and share a full bath! The basement offers another 600+ sq ft of freshly carpeted finished space which has been used as a 5th, non-conforming bedroom. The exterior features a newer Trex Deck with Pergola, Snow Melt Heated Driveway, shed and a
