
 Single Family

 1840 SQFT

 4 Beds

 2 Baths

PROPERTY DETAILS

It's not often that we find a home with over 1/3 of an acre here! Nestled onto this expansive fenced in lot with a sparkling pool (complete with your very own mermaid!) is this wonderful home. The common areas are bountiful with a beautiful living room, a formal-type dining room, a GIANT kitchen & 4 bedrooms. The electrical panel was replaced/updated this year with a permit. The entire home was recently painted & it's all ready for YOU. Summer storm season is easy with accordion shutters all around. The sprinklers are on a well which will certainly save you \$\$! This is one of the more exceptional streets in the area with families surrounding you that have been here for generations. You can come home from a long day & relax in your poolside gazebo enjoying the peace of your fabulous home!
