PROPERTY DETAILS

BREATHTAKING MOUNTAIN, VALLEY AND CITY VIEWS are abundant from this 3 bedroom, 3 bathroom mountain home on over 2 acres! This home also offers the rare opportunity to have high speed Xfinity internet and TV, which is very hard to find in the mountains; along with good cell phone signal and within a short drive of Denver, this home is the perfect location. LIVE AND WORK from home in the mountains and take in the peace and serenity everyone is looking to escape to. Natural slate flooring throughout most of the main level endures even the harshest of what mountain living can track in. The large stone gas fireplace along with newer hardwood floors in the great room keep the warmth and character of a mountain home while the floor to ceiling windows open up to the gorgeous views. Many outdoor decks and patios offer plenty of space for entertaining or relaxing. ** 220V is in for hot tub. ** 115 V for RV Battery and Boats. **Lower floor has been roughed in for 4th bedroom and 4th bathroom.* * Newer Anderson windows and sliders throughout. **Zoned for horses, and HOA will allow for a barn to be built.**
