Relax on your deck and watch the wildlife as elk and deer are frequent visitors! This is a very bright and spacious unit, well maintained with recent interior paint and carpet. The floor plan is open with tons of windows and a living room with vaulted ceilings and a cozy stone fireplace. Walk out of the kitchen on to a huge deck. The master bedroom is as large as many you see in much bigger homes with space for a sitting area in front of a fireplace, vaulted ceilings, en suite master bath and a walk in closet. The lower level is perfect for entertaining with plenty of space for a pool table and walkout to a lower level deck with a hot tub, a third bedroom with walk-in closet and a full bath.
