1/1 Baths

0.21 Acre

PROPERTY DETAILS

Gorgeous and unique condo in Historic Baker neighborhood! Upon entering the building from a security door on Broadway, you immediately understand this is a special and rare find. The 1908 building was renovated in 2006. Up the stairs, you'll find a wide hallway with 10 condos. This condo lives like a townhouse with a large rooftop patio. You enter the living room welcomed by an open kitchen that leads to an amazing private deck/outdoor entertaining space. The condo has wood floors, solid wood doors, upgraded trim and oversized baseboards. The Kitchen includes appliances with gas stove, cool concrete countertops & maple cabinets with modern hardware. The upstairs rooms are carpeted and the second bedroom/loft with closet can be designed to suit your needs and taste. You will find a sizable stackable washer & dryer on the second floor. 2nd floor elevator at the end of the hallway takes you to the underground garage/(B)asement for secured parking. Great location
