## PROPERTY DETAILS

This is a stunning Mountain chic home, designed with an open concept interior and many cozy spaces; five fireplaces and plenty of room for entertaining. A stone fireplace, soaring ceilings, log accents, gleaming hardwood floors, and expansive windows, maximize the views and flood the living room with natural light. The remodeled kitchen/dining area has stainless appliances, beautiful thick granite counters, tons of storage and opens to a private patio with a fire pit. The convenient main floor Master has access to the patio and has a closet/dressing room with a double-sided fireplace. The new bathroom offers a shower and free-standing tub with a great view! An additional spacious room, with a fireplace, offers endless opportunities for the perfect family room or an office/library. Why drive to the office when you can have the ultimate office suite in your home? A curved staircase leads to a loft with two upper level bedrooms that share a full bath. The garden level has access to another deck, two fireplaces, and two rooms with plenty of space for an additional office, family/kids room or a theater, also a walk in closet/storage area and an oversize garage. This Mountain home also offers a luxury custom steam sauna and shower for two. Why not end every day relaxed? This beautiful home has been upgraded, updated, has hand crafted wood-work throughout, is close to town, wooded parks, is in the top school district, offering privacy and the beauty of nature everywhere you look.
