## PROPERTY DETAILS

Don't miss this amazing secluded ranch home surrounded by pine trees, but still close to everything you need. There is a huge in-home workshop, which could also be converted into another space and plenty of room to spread out with a living room upstairs and an enormous sized family room/game room with a wet bar in the walkout basement. The spacious master suite has a large walk-in closet, 5 piece master bath and its own balcony. The additional bedrooms are a great size and some have built in desks. You will love sitting on your deck or at your kitchen table looking out the window at your bird feeders and all the beautiful birds. In the winter you can cozy up in front of your 2 fireplaces and look out the large windows at the amazing views. The 3 1/2 car garage has enough space to park a long vehicle and there is extra parking space on the side of the home for an RV.
