PROPERTY DETAILS

Beautiful upgraded home. You will notice the finishes when you walk in the front door. The main level has hickory floors and 5" base boards for that upgraded look. The master bathroom has been redone with a large rain head shower and walk-in closet. The barns doors add an extra touch. The loft area is a great place for a study or additional living area. The basement is finished with a rec room, bedroom, bathroom and a large walk-in sauna. After a tough day you will enjoy sitting in the sauna. The laundry is located in the basement but can be moved back to the main level of the home all the plumbing is still there.
