

Single Family

984 SQFT

3 Beds

2 Baths

0.15 Acre

PROPERTY DETAILS

Darling bungalow blocks from Anschutz Medical Center. This home has original hardwood floors in the main areas of the home and carpet in two of the bedrooms. Sparkling remodeled kitchen has quartz counter tops, cool tile back splash, stainless steel appliances and plenty of cabinet space. There is a convenient stackable washer and dryer that is included. There was once a garage that is now a third spacious bedroom and a second bathroom was added. This has it's own private entry and can be locked off from the rest of the house. Seller used it as an Air BNB and with hospitals nearby it's possible to have visiting nurses stay or other hospital workers if you want to rent it. Or, it's a terrific home for someone that needs three bedrooms and a great yard. It's been freshly painted, newer vinyl windows installed, new fence in the back yard, a spacious concrete patio and a large tough shed for storing yard equipment. The roof was replaced a few years ago. This house is ready to go.
