PROPERTY DETAILS

This 4 bedroom and 2 full bath house is in a fabulous location and has GREAT potential! Many rooms have been updated and very lovely. Priced right to provide plenty of room for you to make it your own. In the massive back yard you will find a storage shed, huge water feature in the north east corner (not maintained) and an additional structure with electricity. This structure houses a full sized hot tub with plenty of room to create a day spa or workout room as well. You can even get a little creative by removing the hot tub and design a lovely home office, art studio, guest house, man cave, she shed, brew hut, or party/game retreat minus water or sewer. A wonderful space to be coveted by all the neighbors.
