PROPERTY DETAILS

This beautiful home in a nice and quiet community is an end unit within a cul-de-sac. The front porch is quaint and tranquil surrounded by a white picket fence. The open concept on the main level is very inviting and perfect for entertaining. The kitchen has an abundance of counter and cabinet space, with full view of the entire main level for busy times preparing meals and cooking. Remote control lights are under all the upper cabinets that you can turn on and off or change the color of the lights with a touch of a button. The living room has high ceilings and an immense amount of natural light provided by the wall of windows as well as the large window in the dining room. There is also a powder room on the main level for convenience and guests. Wow, that was just the main level. Upstairs you will enjoy a spacious master bedroom with ample closet space and a full en suite bathroom. Additionally there is another full bath and two bedrooms and linen closet. From the living room, traveling down the staircase, there is a large coat closet before exiting to the garage area with not only an automatic garage door opener with keypad but a walk through door as well as a very large storage area that houses the furnace and newer hot water heater. Under the Hot water heater is a drain, to protect your valuables that are stored in the area. The trash receptacle is conveniently placed steps away from the garage door. The pool is closely located on the other side of the cul de sac. What else is there to wish for? This is a wonderful space to thrive, relax, entertain and enjoy life.
