3.84 Acre

PROPERTY DETAILS

Custom built ranch style home located on nearly 4 acres with over 6700 finished sq ft. Solid hardwood floor's throughout the main level with Mountain Views. West facing upper trex deck captures the most stunning sunsets. The 858 sq ft sunroom flaunts a gazebo style ceiling with wrap around views, radiant floor heating, a gas fireplace, built-in bar leading to the outdoor pavilion. Hot water heat keeps the home at an even temperature throughout. The lower level offers un-reined possibilities with the massive new addition of the 682 sq foot rec room, a craft room with double wall closets inclusive of dual utility sink, expansive media room over 800 sq ft. Additional master suite with walk-in closet joins the cozy family room with gas fireplace leading to the walk out covered patio with the serene water feature and additional views. Solid wood doors, three gas fireplaces, two gas cooktops, two ovens, pet free, smoke free, central vac system. The home and detached garage are wrapped in solid natural quartz stack stone. Attached three car garage, heated with an additional Half bath makes a perfect
