

Immaculate Town Home - Former Model Home

Townhouse

1415 SQFT

2 Beds

2 Baths

2 Car

PROPERTY DETAILS

Sensational ranch style townhome was a former model home and has wonderful upgrades. This home is impeccable and feels like a brand new home. Bonus! It's in Cherry Creek School district. The cool design of this townhome has a roll up clear aluminum garage door with 4 glass panels between the great room and the patio. You can bring the inside outdoors to enjoy the cool Colorado evenings or sunshiny mornings. A gas line is already on the patio for your grilling convenience. This unit does not look into another home but onto a green park with a community gathering area. There is a cool fireplace with different heat modes and color schemes, lots of energy efficient windows and beautiful window coverings, recessed lighting, large kitchen island and a fabulous dining room for all your holiday get togethers. The upgraded white cabinets have soft close hinges and look spotless in this kitchen with slab granite counters, stainless steel appliances, an undermount sink, a gas range with double ovens, and a large French door style refrigerator. The primary bedroom is spacious and has a gorgeous ensuite bathroom with granite counters and a large walk in closet. Even the laundry room is spacious and has a granite counter for folding clothes and extra storage cabinets. This home is perfect for those that do not want stairs and it's conveniently located between DTC and downtown Denver.
