

Single Family

2656 SQFT

3 Beds

3/1 Baths

2 Car

1.84 Acre

PROPERTY DETAILS

Enjoy the easy and beautiful drive up and down Hwy 285 with on/off ramp access. Located at the end of a cul-de-sac, this home is on a semi-private driveway. The 2-car oversized garage offers lots of space for storage or toys and has 3 150-gallon cisterns to ensure never a shortage of water from the domestic well. The well is a rarer find in the foothills, as it allows for watering livestock and up to 1 acre of the property. This beautiful 1.84-acre lot has much to offer an equine enthusiast, dog lover, or wildlife observer. The outside is a clean slate to create a unique outdoor living space with views of Riley Peak and surrounding mountains. The home offers a variety of bonus rooms and sunrooms, providing a ton of space to entertain and enjoy a morning cup of coffee. Recently updated with some fresh paint, refinished original hardwood floors and parquet, LVP flooring, carpet, a boiler that was installed in 2021, a hot water tank in 2021, a pressure tank in 2021, and a retaining wall in the backyard. This home has lovely updates that make it turn-key but ready for the next owner to customize it to their lifestyle and taste. In addition, it offers expansion options, such as the non-conforming 4th bedroom/office with a closet in the basement or dividing the primary suite back into two rooms. Be sure to check out the virtual tour of this fantastic foothill home!
