  5 Baths
  3 Car
  0.15 Acre

## PROPERTY DETAILS

Backing to open space, this executive home in Westridge Glen is on one of the most coveted, tree lined streets in all of Highlands Ranch. Take notice of the incredible room sizes on all three finished floors on your way there! With four upstairs bedrooms including a massive owner's retreat, a separate office on the main level, plus a bedroom setup in the finished walk out basement (that can easily be enclosed if desired), you'll never be short of rooms for your guests. Open kitchen to the back living room will surely create a lifetime of memories, especially with those views. Extra large laundry room full of cabinets plus a full size fridge. The walk out basement is mostly finished with tons of flex space, a bathroom AND plenty of unfinished storage. Take advantage of this highly sought after part of HR at a great price - with smaller homes on the street selling for well over \$1MM!
