PROPERTY DETAILS

Nicely updated 2 bedroom/2 bath in this rapidly growing area of Aurora. Updates include LVP flooring in the living room, kitchen, hall and master bedroom. Kitchen has granite countertops, undermounted sinks. Living room features a gas fireplace with a gorgeous stone wall and a custom granite mantel. Attached patio with the mountain views that everyone hopes for. Both bathrooms have also been updated to include granite top vanities with vestal glass bowl sinks in the master. Both bathrooms also feature stone tile floors. Would be hard to find a more updated unit in this complex. All this makes for an easy transition into your new home and it is move in ready!
