PROPERTY DETAILS

Looking for an updated move-in ready home in the mountains? LOOK NO FURTHER! This recently updated mountain contemporary 3 bed, 3 bath home features all new luxury vinyl plank flooring, new stainless kitchen appliances, new carpet, new upstairs toilets and paint throughout the 2240 square feet. Open floor plan living with vaulted ceilings and lots of windows bring the outdoors inside to you. The living room features a wood burning insert fireplace to warm you on the cold winter days. Upstairs you will find all 3 bedrooms including the Primary bedroom with en-suite bathroom and newly updated walk-in shower with rainfall showerhead that features LED color changing lights. The fully finished lower level entices you with 8' 6" ceilings, a huge living area for your media room, office, workout space or could even be converted into a large master suite. The lower level also gives you a full bathroom, laundry room, walkout access to the yard and the attached 2-car garage. Outside, you will find a full 1-acre lot with lots of pines, aspens, a wrap-around 700+ square foot deck and a full fenced large dog/pet area for your furry friends to roam. Check out the video walkthrough at <https://vimeo.com/761713304>. DON'T WAIT! COME CHECK IT OUT TODAY OR CALL US FOR YOUR OWN PRIVATE SHOWING!
