PROPERTY DETAILS

Don't miss a rare opportunity to visit this stunning, newly-built home in Platt Park with every custom upgrade imaginable. All the latest designer finishes have been integrated into this sleek, contemporary, 2-story home which was finished in 2021 from the ground up. This home features 4 bedrooms, one is best used as a gorgeous first-floor home office with a full main floor bathroom immediately adjacent. The three upstairs bedrooms each feature their own full ensuite bathrooms, with the true star being the massive master bathroom with huge walk-in closet & private deck. The finished basement works perfectly as a flex space for a home gym, playroom etc. Custom upgrades include herringbone tile backsplash in master bath, a Casablanca 10' Quartzite double waterfall kitchen island, custom built-ins in the sun-filled upstairs loft area, and a remote operated pergola system for sunny days on the patio. The gorgeous open-concept floor plan is perfect entertaining. Buyers will discover the amazing location less than a mile from Wash Park, Pearl St. and the University Of Denver light rail station.
