PROPERTY DETAILS

Better than new with tons of upgrades and seller has added many more, saving you tens of thousands of dollars! The fully fenced & landscaped low maintenance yard is almost 10,000 sqft with a stamped concrete patio, many trees and artificial grass. Kitchen upgrades like high end appliance package, 42 inch uppers & granite. 10 foot ceilings on the main level (9 foot below) and abundant natural light help the home feel airy and bright. The main level primary suite features a double shower design, custom closet system and large vanity. 2nd bedroom on the main has a walk in closet and is adjacent to another full bath. The office could double as another bedroom, den or formal dining room. Off the garage is the mud room and laundry. Downstairs includes an open staircase for natural light, leading to the massive family room with space for a full kitchen/bar and game tables plus a large 3rd bedroom with adjacent full bath. The unfinished space with large egress window can become what ever you need. Upgraded 2.5 car garage with custom flooring and cabinetry. You are going to love living here!
